

IsatPhone²

IsatPhone 2 is the latest addition to the Inmarsat handheld satellite phone portfolio with a range of additional features that help you to stay connected in the most extreme and remote locations.

Overview

IsatPhone 2 is a tough phone for a tough world. The robust handset has been engineered to cope with anything that nature can throw at it - from searing heat to icy blasts; desert sandstorms or monsoon rain. And with fast network registration, an unrivalled battery life offering 8 hours of talk time and up to 160 hours of standby time, you know you can always depend on the IsatPhone 2.

FEATURES

- **READY:** fast network registration in under 45 seconds and unrivalled battery life, with 8 hours of talk time and up to 160 hours of standby time
- **RELIABLE:** operates over global geostationary satellites ensuring reliable call stability and network connection
- **ROBUST:** designed and engineered to withstand the most extreme conditions; operates at -20°C to +55°C (larger keypad for easy dialling when wearing gloves); dust, splash and shock resistant (IP65, IK04); humidity tolerance from 0 to 95%
- **REASSURING:** location services, including tracking and assistance button, keep people updated of your GPS coordinates when it matters. Receive notification of inbound calls even with antenna stowed
