

Iridium 9575 Extreme

Iridium's most durable, next generation satellite telephone.

9575 is a rugged, out of the box satellite phone with a simple user interface and a range of added features.

Overview

Iridium Extreme is the toughest handset ever from the only company that offers real global, real mobile, real reliable communications. Engineered with more features and more accessories than any other satellite phone on the market, Iridium Extreme puts more innovative capability — and more ways to connect than ever before — into the hands of people everywhere.

New possibilities

Iridium Extreme builds on the same reliable voice and data capability that users have come to trust from the only real mobile, real global satellite communications company in the world. No other mobile communications company brings you two-way global coverage across oceans, airways and polar regions and reliable, near real-time communications services customizable for virtually every industry.

Powerful capabilities

Iridium Extreme is ruggedly engineered to support the toughest, highest usage customers of satellite phone communications in the harshest conditions, everywhere:

- Military-grade (MIL-STD 810F) durability
- Ingress Protection (IP) rating of IP65
- Includes speakerphone and wind-resistant microphone
- Diamond tread, tapered grip provides best in-hand ergonomics of any satellite phone
